## THE COUNTY.

The result of the election in this county on Tuesday, is given in the official figures, published in another column. It will be seen that whilst the Democrats elect the Treasurer, Director, and Auditor, with a tie for Surveyor, the Republican candidates for Assembly, Prothonotary, District Attorney, and Commissioner are successful.

The loss of any part of our ticket could easily have been avoided. We have since made it a subject of close inquiry with persons from the different districts, and find that, whilst the Republican vote was out almost to a man—never more thoroughly so—the Democratic vote was back in all but three or four districts. In the balance, numbers of Democrats varying from 15 to 70, stayed at home, contenting themselves with the often fatal idea that there "would be enough to carry the county anyhow."

This is the main cause of the defeat of a portion of our excellent ticket, through the never-paying practice of "scratching" had something to do with it too.

These causes defeated nearly our whole ticket in 1861, as well as on several previous occasions—and it seemed that the lesson had to be learned again.

We think it safe to say that more than four hundred Democrats remained from the polls throughout the county, on Tuesday, whilst the non-voting Republicans would not number one hundred. This is no mere guess. It is a firm belief, established by information derived from the best-informed sources—and we predict now that next year's result will prove it.

In 1861 we saved but a candidate or two in 1862, we spent everything by almost unprecedented majorities. The "stay-at-home" and "cutting" lessons had been learned at a dear cost, but the first opportunity was sought to wipe out the disgrace. So it will be again.

It should be mentioned also that whilst the Republicans were pretending to be unconcerned about the result and had no hope of electing any part of their ticket, they were secretly very active, and, as a consequence, had their full vote at the polls.

This shows, for the hundredth time, that their professions are not to be trusted—that they must always be looked upon as doing their best, whether they seem to be doing it or not.

Then look at the "gutting" business.—This county has never had a more impudent individual than McConaughy. Nobody liked him—almost everybody had something to say to his discredit. And yet when it came to voting, not one in ten who had threatened to cut him did so—whilst Democrats were good natured enough to "cut" their tickets to the extent of electing Republicans to some of the most prominent offices. Many now no doubt regret their course, but it comes too late. Let the result in 1865 be a warning for all future time.

In this borough and Highland the vote was fully out on both sides—and in both the Democrats held the Republicans where they held them last year, when the county gave a Democratic majority of 411. Had the full strength been out in all the districts, the result in the county would not have been far different.

A survey of the whole field convinces us that but for over confidence the Democracy of the county would have been gloriously triumphant. The same act of folly should never again occur—and we do not believe that it will for some years to come. There is no school so dear as that of experience.

## SENATORIAL ELECTION.

The vote of Adams and Franklin was cast up by the Return Judges on Friday last. It stands as follows:

Duncan's majority, 91

McConaughy's majority, 57

Duncan's majority, 34

It is likely that a few soldier votes may come in, but Duncan's election is generally conceded.

The election over, we shall again be able to give a greater variety of reading matter—something to entertain, inform and instruct everybody. The literary and news departments will be well seen to—the agricultural and domestic likewise—whilst politics our readers will be kept posted, especially in regard to the doing in Congress and the Legislature. The radicals will make a heavy "set" against President Johnson, and the contest which will ensue will be an interesting if not an exciting one. The newspapers will therefore have many matters of moment to present to their readers, and we are determined that the Compiler shall give its full share. All such; then, as desire a paper entirely up with the times in everything, and the earnest advocate of correct principles, should not fail to secure the Compiler.

Campaign subscribers desiring the paper to be continued, will please so inform us during the present week, either by letter or otherwise.

*Black Eye*.—A violent free suffrage man in the First Ward yesterday was attempting to control the vote of a wounded soldier who was favorable to Democratic principles. In the course of his harangue the free suffrage man said that any soldier who voted for him would hold them together for all time to come; and we believe that they have only to hold together and renew each recurring conflict with spirit, in order to be successful in the end.

*Democrat of Pennsylvania*, pick your guns and hold yourselves in readiness to renew the battle next year!

## SKIES BRIGHTENING!

The *Patriot & Union* says the Republican majority in Pennsylvania is about 8,000. Last year it was 20,000. The State is safe for a Democratic Governor next fall!

The N. Y. *World*, after referring to the Democratic gains in Ohio, Iowa and Pennsylvania remarks: "The tide has set heavily in favor of the Democratic party, and by November we will carry New York and New Jersey by heavy majorities."

**CertIFICATE.**

The undersigned, having used the "IRON

CAST STEEL MOLDOBOARD PLOUGH,"

manufactured at Pittsburgh by Hunt &amp; Speer

Linen, upon the per cent. of Ammonia, Balsam

Phosphate and Bone Phosphate of Lime they contain.

This Guano is different from Peruvian only

in the fact that it contains less Ammonia, but

this difference makes it a durable fertilizer, with

all the activity of Peruvian Guano. Although

the price of this Guano is not higher than

the Super Phosphates of Lime, yet it contains, as

is proven by analysis and inspection, vastly

more of ammonia, soda, and Bone Phosphate,

that is found in the best of them. Hence its

economy and intrinsic value must render it an

object of great interest to farmers generally.

We wish farmers to take especial notice,

that the conditions upon which we have the

agreement of this Guano are that every cargo is

regularly inspected and analyzed by Dr. Lie-

big, whose authority in such matters is para-

monous.

This arrangement affords us and consumers

a protection not had in the purchase of fertilizers

generally. It must also be noticed that the

phosphates of this Guano are not mineral, but earthy phosphates, which is greatly to its

advantage.

The following is a summary of analysis of

last cargo:

Moisture, 10 percent.

Organic Combustible Matter, 39.71 " "

Earthy Matter, 50.28 " "

Yielding Ammonia, 3.40 per cent.

Soluble Phosphate of Lime, 17.07 " "

Bone Phosphate of Lime, 24.22 " "
